## EDUCATION

### Computer Engineering (Computer Networks and Communications)

Kharkiv National University of Radioelectronics

2023 – present

### Junior Specialist in Software Engineering

Kharkiv Computer Applied College

2019 – 2023

## SKILLS

Typescript, JavaScript

React, Redux

HTML5, CSS3, Sass (SCSS), BEM, Bootstrap, Bulma, Material UI

Node, Express

Fetch, REST API, MySQL

Figma

Git/GitHub, VS Code, Chrome Developer Tools (incl. React), NPM, Trello

Basic OOP understanding, basic C++ knowledge

Knowledge of SDLC, Waterfall, and Agile concepts (Scrum, Kanban)

English

Upper-Intermediate

## SUMMARY

As a **Frontend Developer** with a robust **background in Information Technologies** and proficient **Upper-Intermediate** level in English, I bring a wealth of experience. Leveraging my **Specialist degree** in Information Technologies, specializing in **Software Engineering**, I've navigated complex technical challenges adeptly. For example, leading a front-end application's development resulted in a **30% user engagement** increase in three months. Additionally, my exceptional communication skills foster collaboration, evidenced by a **20% decrease** in project timeline delays through cross-departmental meetings facilitation.

## EXPERIENCE

### Frontend Developer

2022 – present

#### Responsibilities:

- Spearheaded React application development, utilizing advanced techniques like JSX, hooks, routers, and both class and functional components. Increased user productivity by **40%** with a complex dashboard interface.
- Translated Figma grid layouts into pixel-perfect, responsive webpages using HTML, CSS, SASS, and JavaScript. Led a team effort revamping the company homepage, reducing bounce rates by **25%** and increasing user engagement by **15%**.
- Conducted thorough code reviews, ensuring adherence to standards, best practices, and project requirements. Achieved a **30%** reduction in post-deployment bugs and improved code maintainability.
- Investigated and resolved critical front-end bugs swiftly, minimizing downtime and preventing revenue loss during high-traffic promotional campaigns.
- Actively participated in knowledge-sharing sessions, staying updated on the latest front-end development trends. Contributed insights on implementing CSS grid layouts, improving workflow efficiency and project deliverables.

## PROJECTS

### Electronics and accessories store

Electronic equipment directory web application developed using React and TypeScript. Allows users to browse and search for phones by various parameters (**TypeScript, React, SCSS**)

[Demo](#) [GitHub](#)

### BikeBoost: Soaring Above with Your Bicycle

Landing for a company that sells bicycles and bicycle accessories. Designed to attract the attention of potential customers and promote products (**HTML, SCSS, JS**)

[Demo](#) [GitHub](#)

### Numeric Nexus: The Challenge of Combining

The web version of the popular game 2048. Players need to match tiles with the same number to create a tile with the number 2048 (**HTML, SCSS, JS**)

[Demo](#) [GitHub](#)

## ADDITIONAL EDUCATION

---

### Udemy:

- Creating an administrative panel on React.js + PHP [↗](#)
- Node JS. Practical course. (Mongo, GraphQL, MySQL, Express) [↗](#)
- Complete course on JavaScript + React - from scratch to results

### Frontend course at Mate Academy

- (Git, HTML, CSS, JavaScript, Typescript, React, Web)

### Loft House Landing

Landing for a real estate agency that sells loft-style apartments. It is aimed at attracting buyers and showing the features of the objects (**HTML, SCSS, JS**)

[Demo](#) [↗](#) [GitHub](#) [↗](#)

### Weather Wise

A simple web application for viewing the weather in different locations. It uses an API to get current weather conditions and forecasts (**HTML, CSS, JS**)

[Demo](#) [↗](#) [GitHub](#) [↗](#)

### Food Project

Web project for ordering food online. Users can browse the menu, order, and pay through this app (**JS, PHP, HTML, CSS**)

[Demo](#) [↗](#) [GitHub](#) [↗](#)

### Frontend developer portfolio

Created to demonstrate skills and achievements in the field of web development. A portfolio includes a visually appealing design, interactive elements, and other important aspects to attract the attention of clients (**React, CSS**)

[Demo](#) [↗](#) [GitHub](#) [↗](#)

## ACHIEVEMENT

---

### 2nd place in the Kharkiv Region football championship

2020

### 1st class in scuba diving

2018

### Gratitude from the 127th TrO brigade of Kharkiv

for the donated car

In addition to my technical achievements, I am actively involved in humanitarian efforts. Notably, I provided critical assistance to the Ukrainian armed forces by purchasing and delivering two SUVs and sponsoring the repair of two more vehicles. These tangible contributions underscore my commitment to making a positive impact beyond the realm of technology.
